THROUGH RELATIONSHIPS

CAPABILITY · GUIDED MATCHING

Introduced with care. Connected by consent.

RTR never auto-matches. A trained facilitator reviews every recommendation, and both people must say yes before any contact opens.

Reviewed by a person

Every recommendation passes through a facilitator who knows the community before an introduction is ever made.

Mutual consent, always

Both people must agree before contact opens. Either person can decline — quietly, and without explanation.

Privacy until yes

Profiles show initials, not photos, by design. Photos are exchanged in conversation, after both people agree to connect.

*“Matching is mediated.
People are introduced
by people.”*

Technology suggests; human judgment and mutual consent decide.
